

Easypack/POP Displays Group exhibits at the Royal Norfolk Show

Mildenhall based Easypack/POP Displays Group, one of most forward thinking print and packaging companies in the UK, exhibited on stand 382 at this year's Royal Norfolk Show on 1st & 2nd July.

Through acquisitions and well placed investments, the company has now become the only UK packaging company to manufacture commercial print, carton board packaging, corrugated packaging, point-of-purchase displays and co-packing/fulfilment from a single site. The company currently holds approved supplier status to a number of leading brands and provides a complete supply chain solution.

Easypack was formed in 1977 to offer corrugated packaging to a local market and has since grown considerably. The Company is proud to be an 'Approved Printer' for this year's prestigious two day event.
